PROFILE

A Web-Developer with a demonstrated history of working in the technology industry. Passionate about web and application development, with extensive coding and debugging skills. Strong Full-Stack Web Developer certified by Manchester University in web-app development and deployment.

EXPERIENCE

Web Developer, Self-Employed, Manchester — Current

- Utilised IDE (integrated development environment) to build applications.
- Installed web browser-based development tools to Debug problematic application codes.
- Build, maintained and updated an extensive database containing 100s of user input data.
- Refactored and maintained the functionality and effectiveness of legend websites and applications.
- Provided excellent, knowledgeable and high-quality professional support to clients from the start to the final stages of production.
- Collaborated with team members that saw up to 5 clients daily, providing advice and support on their website production process.

Sound Designer/Studio Engineer, Signal Path Studios, Manchester — 2018–Present

- Utilised Digital Sound Processing (DSP) to manipulate and enhance the music for films, television and video games.
- Installed and operated Digital Audio Workstations (DAW) to edit and mix samples and music scores.
- Designed, maintained and updated extensive sound libraries containing over 1000 music, foley and SFX (sound effects) sounds.
- Maintained the functionality and effectiveness of analogue audio equipment.
- Provided excellent, knowledgeable and high-quality professional support to clients from the start to the final stages of production.
- Scheduled and saw 2 to 3 clients per day, providing advice and support on the music production process.

Logistics, British Car Auction Limited, Manchester — 2017-Present

- Used effective time management and organisation skills to plan the distribution of vehicles in the UK, using computer-based applications to carry out inspections and analyses.
- Provided logistics with comprehensive reports for continued improvements in customer satisfaction.
- Scheduled and saw 5 customers per day, providing advice and support on their purchased vehicles.
